What is the COVID-19 vaccination?

It helps to stop
us getting poorly.

If you have the vaccine, you will feel a
small pinch in your arm. It might hurt a bit.

And you may feel a bit
poorly for a little while.

Then the medicine
will start to work.

And then you will be
safer from COVID.

You don't have to
have the vaccine.

It is up to you and your family to decide.

Thanks for
reading!
