Soul dating facilitates romantic friendship by grounding people in relationship reality. That doesn't mean taking all the fun and romance out of dating. The joy and excitement of soul dating not only lasts longer i.e., forever but it's far more intense and deep. When you know how to date with ease and confidence, letting the real you shine through so that who you attract is seeing your soul and loving you for it, dating becomes so much easier. My clients don't want to play games, they want someone to see their soul. Soul Dating. Soul is a virtual social network based on a new generation of young people.
