How-to Redeem Codes in Captive

If you want to redeem codes in Captive it's a fairly simple process. When you open up the game, look for the bright blue Twitter icon on the side of the screen. Click on that and you will be asked to enter a code. Copy one of the codes from our list and paste it in the Enter code here area. Hit the enter key on your keyboard and you will be given the reward!

Playing Captive

The gameplay behind Captive is pretty familiar if you played games like Murder Mystery and Piggy. You are either the Beast who is hunting down players, or you are one of the captives who is looking to escape! If you're a captive, you will need to hack computers to open up doors which will allow you to get out before being taken out by the Beast. If you're the Beast, then prevent the other players from escaping by any means possible!
