Erasmus+

Interdisciplinary lessons were held online through which students enriched their knowledge of the Black Sea and discussed the issues with which it faces.

Using various web 2.0 applications, they solved puzzles, described the Sea, the Erasmus+ Program in WordArt, drew, made videos and PowerPoint presentations.

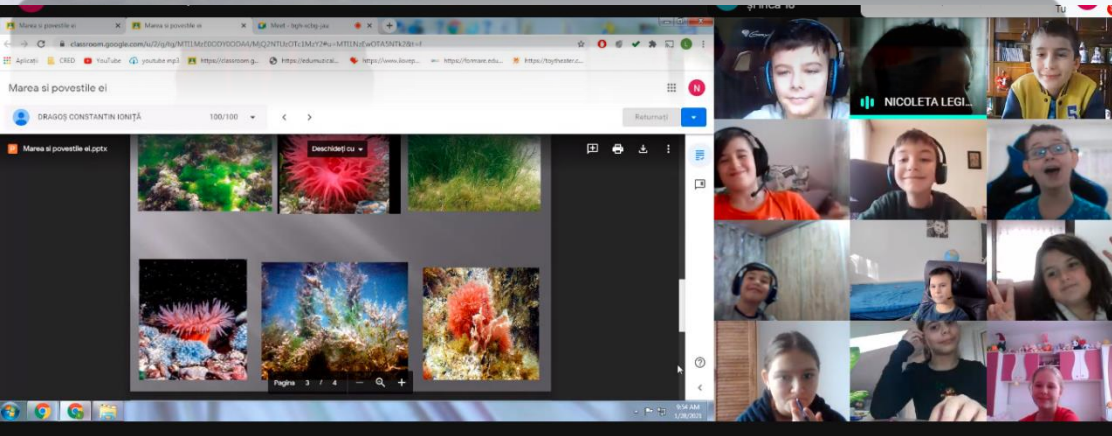

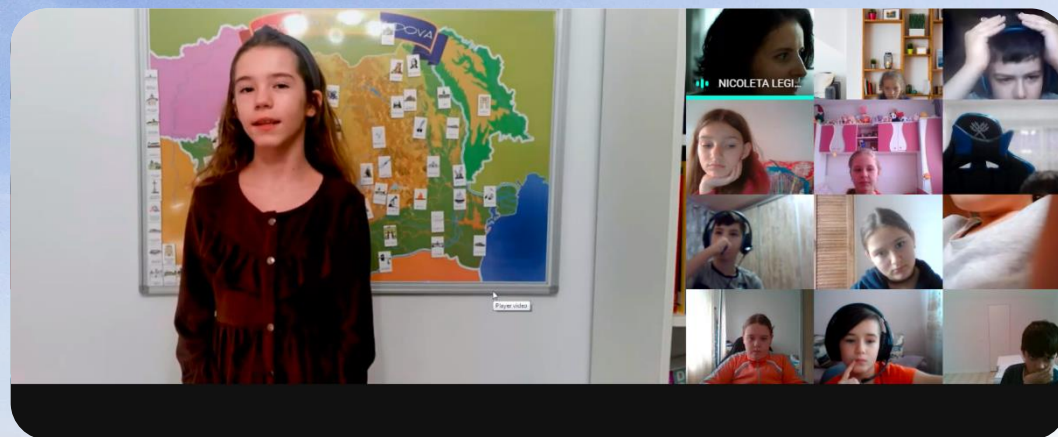

Erasmus+

4th-grade students traveled imaginarily on the Black Sea and found answers to their curiosities about the marine environment.

Erasmus+

What do I know about the sea? How did the sea form, who lives in its depths? These are just some of the questions that preoccupied the students of Preparatory Class C... They were given appropriate answers, thus becoming familiar with the first information about the marine ecosystem and the opportunity to live near the sea. Keeping the playful and fun note, they cut, rolled, they glued and thus made from paper works entitled *Little fish in the waves of the sea.*

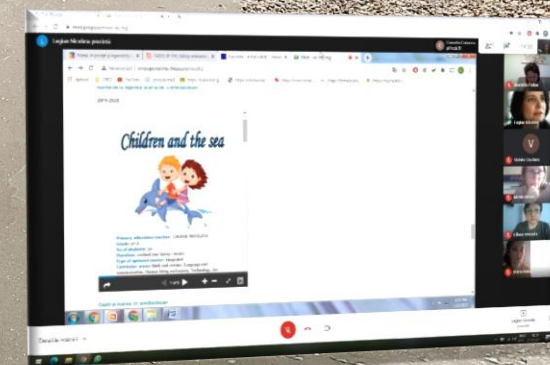

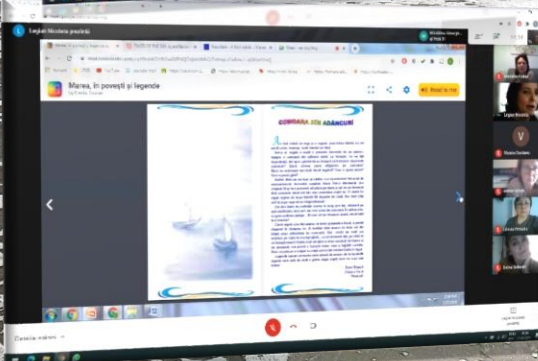

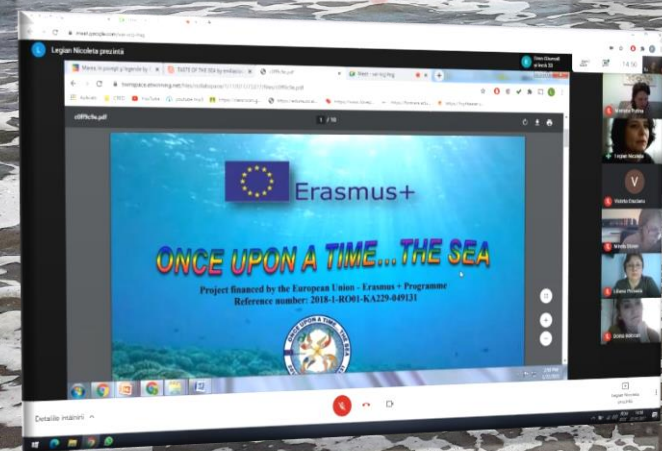

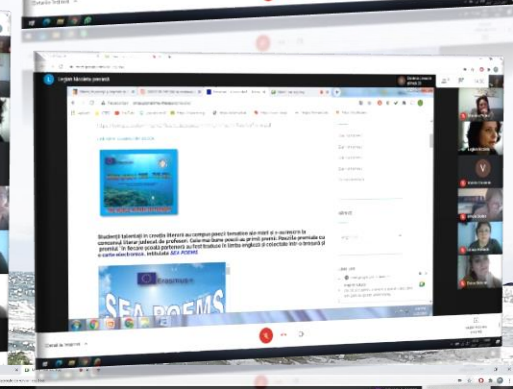

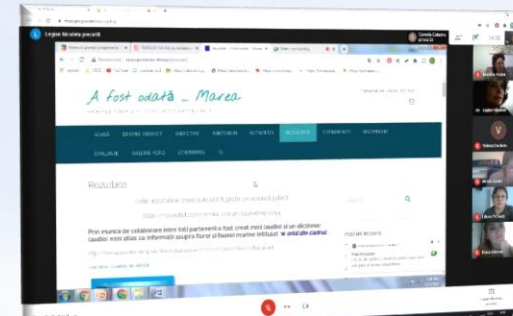

Erasmus+

Dissemination of project activities and results obtained in a methodical meeting of teachers from all schools in Medgidia

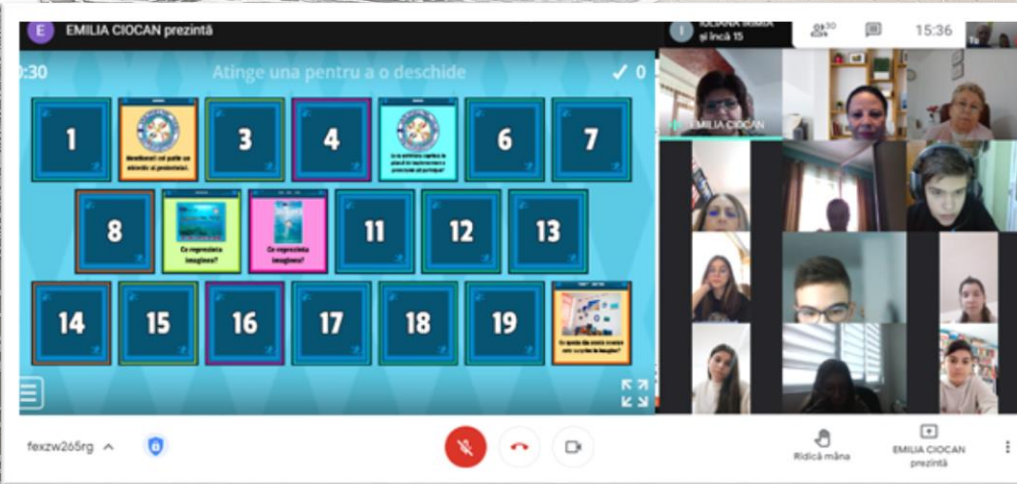

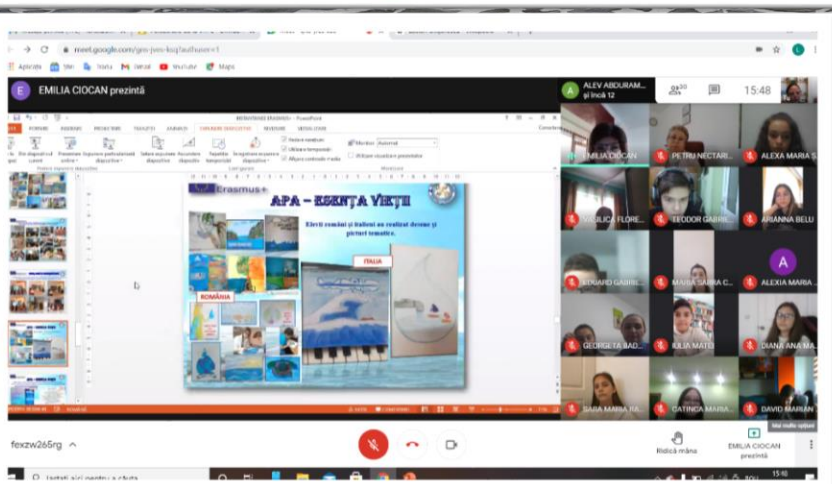

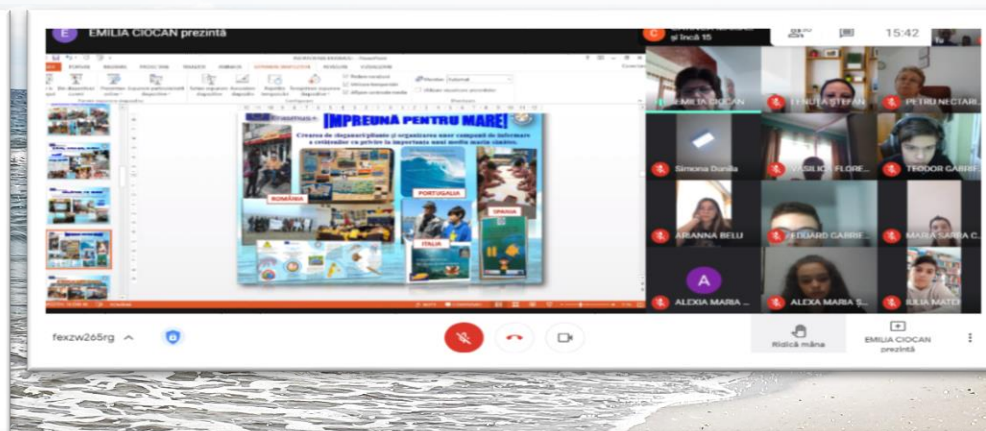

Erasmus+

The program of activities dedicated to the celebration of School Day included the dissemination of the relevant aspects and the results obtained within the project, through a PowerPoint presentation and a set of questions regarding the implementation of the Erasmus + project. The correct answers of the participating students were proof that they have an in-depth knowledge of its implementation so far.

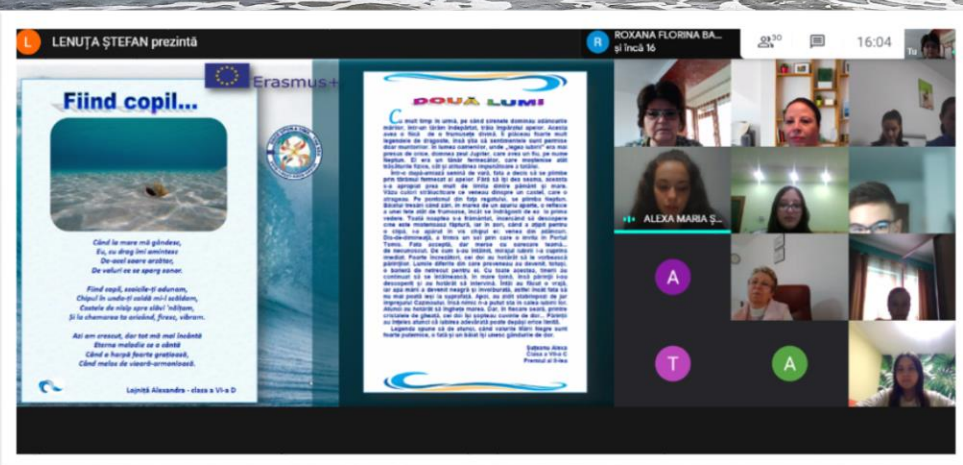

Erasmus+

There were artistic moments too! The students awarded at the Sea Poems and The Sea in stories and legends competitions read their creations, and Andreea Badea (a former member of the project team, currently a student in the ninth grade) and Sara Raftu, from the sixth grade, delighted the audience with their wonderful voices, performing songs dedicated to the sea.

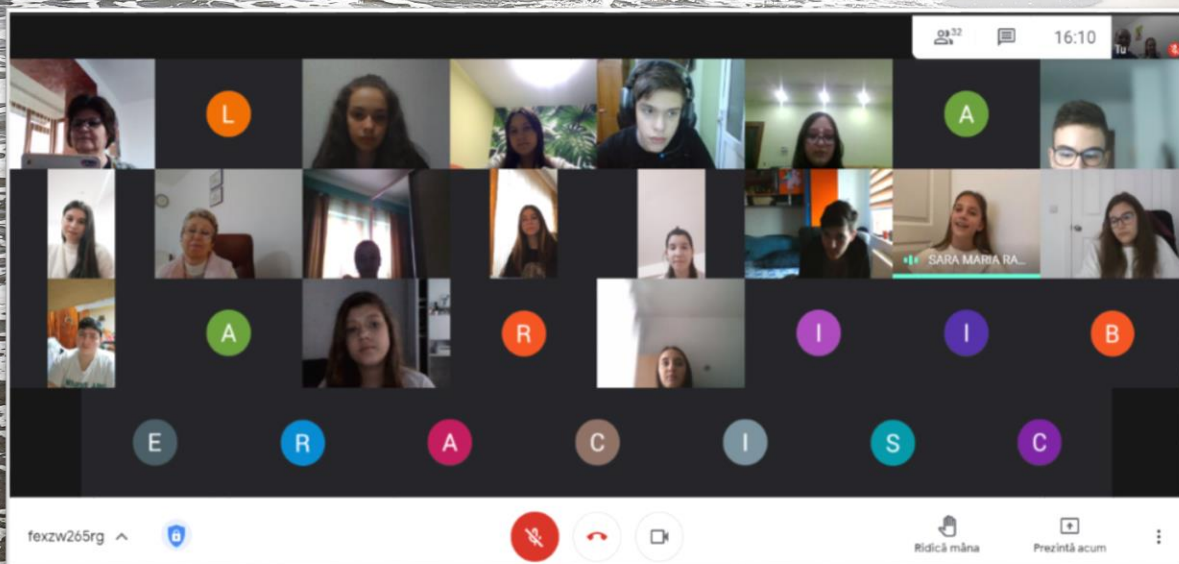

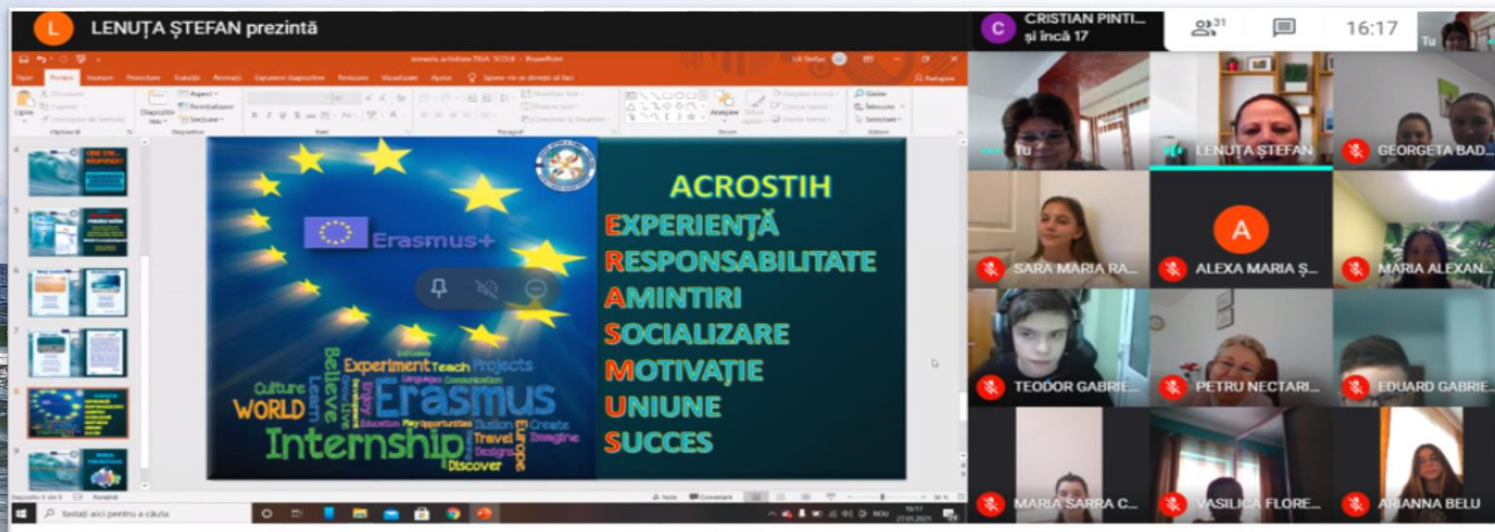

Erasmus+

The activity ended with solving an acrostic with the theme "ERASMUS" and singing the project anthem by Sara Raftu.

Erasmus+

In order to make known the activities carried out, a press release was drafted, which was posted on the Forum of the County School Inspectorate, which later became news in a regional daily.

Activitate proiect Erasmus+ la Școala Gimnazială "Lucian Grigorescu" - Medgidia
« 29 Ianuarie 2021, 11:54:41 »

Cu prilejul manifestărilor dedicate Zilei Școlii Gimnaziale "Lucian Grigorescu" din Medgidia, miercuri, 27 ianuarie 2021, s-a derulat online activitatea "Mă mândresc cu școala mea!". Printre obiectivele vizate s-a numărat și diseminarea activităților desfășurate și a rezultatelor obținute în cadrul proiectului ONCE UPON A TIME... THE SEA (2018-1-RO01-KA229-049131_1), finanțat de către Comisia Europeană, prin programul Erasmus+. Proiectul, care a fost demarat pe data de 1 septembrie 2018 și se va finaliza pe 31 august 2021, este coordonat de școala noastră și are ca parteneri instituții de învățământ din Italia, Spania și Portugalia.

Detalii despre activitate puteți afla din comunicatul atasat acestui mesaj.
