WORLD ENVIRONMENT DAY

Was celebrated by the pupils with online activities which enabled them to observe and understand better sea pollution via films and 3D cartoons provided on

www.mozaweb.ro

WORLD ENVIRONMENT DAY

Participation in online activities dedicated to *World Environment Day* organized by *Mare Nostrum NGO*, as **GREEN WEEK ONLINE FEST**.

During a week with a lot of challenges and surprises participants approached topics such as marine biodiversity (scientific workshop); marine waste; responsibility towards marine environment and sustainable behavior; active volunteering.

The project coordinator was one of the prize winners of the environment festival, as a result of the right reaction to the challenges.

TODAY FOR TOMORROW!

Older students, though on vacation, participated to online workshops organized by volunteers from *Mare Nostrum NGO*, in order to promote the “zero waste on beach” principle and acquisition of their skills for selective waste management.

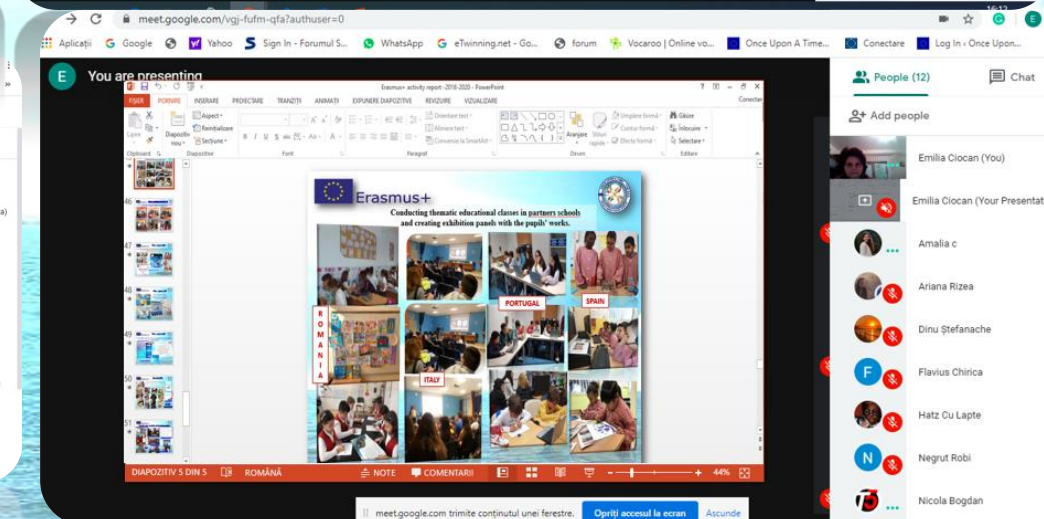

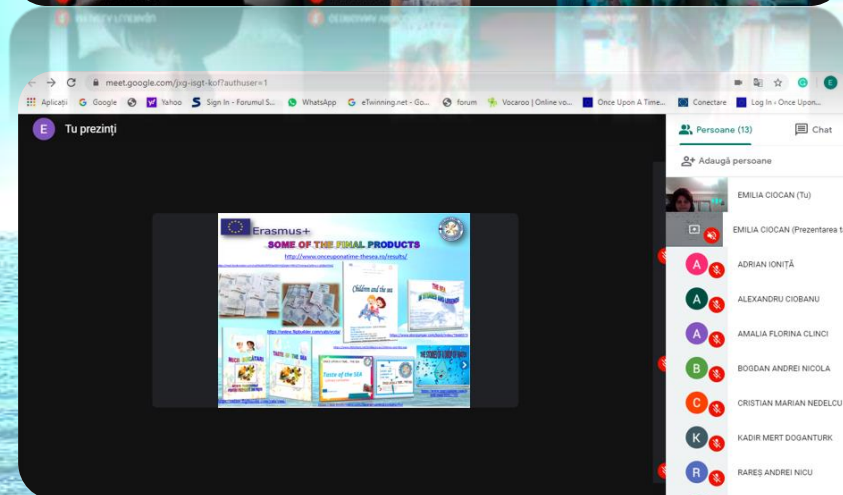

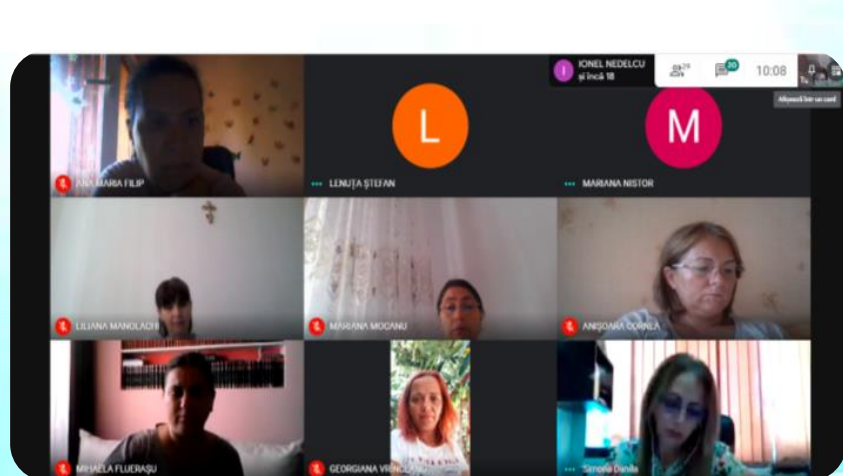

Erasmus+

Review, during Teachers' Meeting, of the activities from the second project year and online questionnaires to representative responders.

MY FRIEND, THE SEA!

Even in pandemic situation, fully observing the government regulations, we enjoyed the sea in the summer, playing on the beach, practising various sea water sports or simply listening to the sea, admiring the sunrise and sunset.

MY FRIEND, THE SEA!

REVIEW OF THE EVALUATION QUESTIONNAIRE

In order to evaluate the project outcomes were applied questionnaires to a representative number of respondents (students, teachers, parents, local representatives from each partner school). The responses were reviewed by the project team in order to set out an activity schedule for September 2020 – February 2021, following the decision to extend the project implementation time.

The unanimous conclusion was that the project was attractive and interesting for all participants who did their best to understand the common issues of the marine environment and coastal areas.
