Once upon a time... the SEA

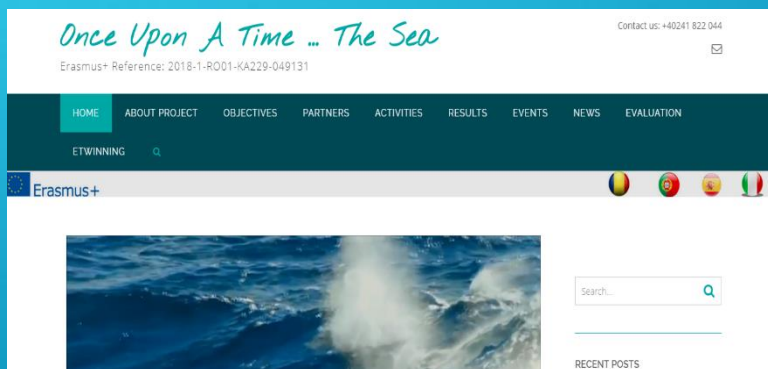

05.09.2018

The project has an attractive title starting as a story "Once upon a time..." but emphasized on "THE SEA", which appears as a common denominator for all participants living near the sea, which we can imagine as giant labs and a learning space, geographically, politically, culturally and symbolically Europe. # THE MEETING EVALUATION

**The meeting evaluation was done by filling in two questionnaires by all partner representatives on the organization, activities and discussion included in the transnational meeting.**

**They show that the guests appreciated positively each meeting aspect, starting with the warm welcome, euro-classroom arrangement, as well as the information related to the activity of the schools, presentation of the educational systems. The celebration of the Black Sea International Day showed how important is to be part of a team who supports and promotes each member, especially when the feedback from the parents is remarkable and people share the experience acquired with teachers belonging to different cultures. All participants appreciated the meeting with the maximum mark.**
