5. A blue screen will appear to the “ClassLink Launchpad” where the student will have access to all of the District’s apps.

\*Troubleshooting tips:

If this is the first time your student is using a chromebook, they might have to agree to Google’s terms and conditions before proceeding.

If there is more than one student using the same chromebook, make sure the other student is completely signed out of their account.

If they are using a home PC, make sure all other Google accounts are signed out in order for your student to join the OUESD secure network.
