

The 24 Game

A great activity to try as a family at home!

For each game you have 4 numbers, you have to use **ALL** four numbers, you can add, subtract, multiply or divide these to make 24.

Example:

2 2 6 8

To make 24, I can do

$$(8 - 2) \times (6 - 2)$$

$$8 - 2 = 6$$

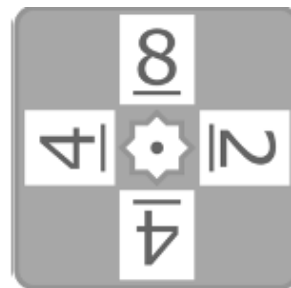

$$6 - 2 = 4$$

$$6 \times 4 = 24$$

Remember your orders of operations (BIDMAS or BODMAS)

Bronze

Silver

Gold
